

Northshire crime watch meeting 080722

Sheriff's Department security suggestions:

Thieves generally only want to steal "pillow case" items

Jewelry

Silverware

Small electronics

Don't carry your Social Security card in your purse or wallet. Make a copy of your vehicle registration and keep it in your glove box. Keep the original at home or other safe place to prevent ID theft

Lock your car and your house

Improve communications by using more signage, e-mail, and the website

Checkout the County sheriff's website <http://lcs.leonfl.org/index.html> and the FDLE website <http://www.fdle.state.fl.us/>

Make a list of household items including the model, serial number, file sales receipt. Because of identity theft issues, do not identify objects with your driver's license number or her Social Security number. Rather use a "made up" number that you will remember to identify the objects.
